GV-Backup Center Version History

Version 1.2.1A 2022-06-22

Modified:

- Redundant audio files removed

Version 1.2.1 2020-11-27

New:

- Support for Windows Server 2016

Fixed:

- Chances of backing up the recordings from before the specified number of keep days
- Chances of failure to correctly display the camera name of IP cameras connected on GV-Remote ViewLog V1

Modified:

- Audio codec changed to PCM
- End of support for 32-bit OS and 64-bit Windows 7 / 8 / Server 2008 R2 / Server 2012
- Copyright notices added to the Installer and accessible within the software directory

Version 1.2.0 2016-12-29

New:

- Support for Windows 10
- Support for GV-VMS V16.10.3 or later
- Support for H.265 video codec
- Support for HTML5 charts
- Support for Media Man Tools
- Support for database repair

Fixed:

- Open failure of re-transmitted files
- Garbled host names displayed in the GV-Remote ViewLog player

Improved:

- Support for e-mail alerts when file transmission fails more than the specified number of times
- File names of successful / failed transmission displayed in Query Result List and exported word files

Changed:

- End of support of Windows XP and Vista

Version 1.1.2 2014-07-18

New:

- Support for recording backup from GV-Recording Server V1.2.4.0

Fixed:

- Disconnection with GV-System V8.5.9 when the recorded clip is not created completely but file backup is processing
- Incorrect event query when multiple hosts are selected as search criteria
- No audio during the playback of GV-System V8.5.9 recordings using Remote ViewLog
- Unlimited rights of accessing query events of all the other accounts with a single account

Improved:

- Support for configuring file transfer settings for each host (only for GV-NVR V8.5.9 and GV-IP Camera firmware V2.10 or later)
- File transfer settings where the time span across midnight is supported for transfer time (only for GV-System V8.5.9 and GV-IP Camera firmware V2.10 or later)
- Support for host name display in the File Transfer field on the main screen upon cursor indication

Version 1.1.1 2013-06-27

New:

- Support for Windows 8 (32 and 64-bit) and Server 2012 (64-bit)

Version 1.1.0 2012-10-30

New:

- Support for 0-port GV-NVR Dongle
- Support for backing up the recordings from GV-System
- Support for defining rules to specify camera, time period of recordings, event type (all types, motion or I/O trigger) for backup

Improved:

- Support for Keep Day to define the number of days to keep the recordings
- Support for Recycle for the database on GV-Backup Center

Version 1.0.1 2011-08-19

Fixed:

- System instability with Sandy Bridge chipsets
- System instability under CPU power-saving mode

Improved:

- Support for 16 multilingual versions
