

Blackbody Device

Extended Warranty

1. The Extended Warranty Card can only be used for Dahua Temperature Calibration Devices ("Devices").
2. To activate the extended warranty, please log in to the Dahua RMA Portal (<https://rma.dahuasecurity.com/en/thermal>) and input the Card Number, Password and Serial Number of your Device.
3. An Extended Warranty Period begins when the last Warranty Period expires and is valid for one (1) year. Only two Extended Warranty Periods are allowed for each Device.
4. The Extended Warranty Card may only be activated when the existing warranty period is still valid. The Card cannot be activated if your Device is already out of warranty.

This Extended Warranty Card is supplemental and subject to Dahua's Limited Hardware Warranty, Return & Exchange Policies, and RMA Process ("Warranty & RMA"). Please refer to <https://us.dahuasecurity.com/support/warranty-rma/>. For any other questions about requesting service for your Device(s), please email the Dahua RMA team at rma.support@dahuatech.com.
