

PWR-12DC-8-5

8 Camera 12VDC 5Amp Power Supply

The PWR-12DC-8-5 is a CCTV power center engineered to manage remote camera and accessory power requirements. The PWR-12DC-8-5 distribution module is designed with 8 individually fused outputs for powering up to 8 CCTV cameras and accessories. It will provide 12 VDC via distribution to eight fused outputs with a total of 5 Amps continuous supply current. The PWR-12DC-8-5 power center is housed in a premium lockable heavy gauge metal enclosure.

Key Features

- Convenient screw and terminal and fuse access
- Lockable heavy gauge metal enclosure
- Individual LED's for each fused output
- Multiple knockouts to accommodate various wiring configurations
- Uses easy to find automotive style fuses

Technical Specifications

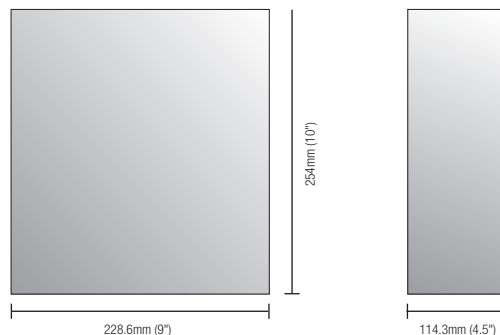

PWR-12DC-8-5

FEATURES

Convenient screw and terminal and fuse access
Separation panel between transformers and output access
Power ON/OFF switch
Individual LED's for each fused output
AC power LED indicator
Double coated polyurethane finish
Multiple knockouts to accommodate various wiring configurations
Uses easy to find automotive style fuses
Includes transformer and spare fuses
Built-in battery charger
Lockable heavy gauge metal enclosure

Dimensions

Unit : mm (inch)

SPECIFICATIONS

Input	115VAC 50/60 HZ; 1.0 Amps
Output	3 Amps
5 Amps 100VA supply currents at 70°F	
Fuse	7.5 Amps
Eight 12VDC individually fused outputs	
Transformer	110/28VAC, 100VA
Enclosure Dimensions	254 x 228.6 x 114.3mm (10" x 9" x 4.5")
