

MEGASHEARS

Designed with Japanese Stainless Steel blades, adjustable cutting width and tension control, the MegaShears are the ultimate cutting tool. These shears are perfect for electricians, installers, and utility technicians needing clean, powerful cuts across a wide range of materials. Key features include:

- Adjustable-range cutting capabilities with spring loaded handles for optimized control across a wide range of materials:
 Closed (C) : Compacity and secure for safe storage
 Small Range (S): For small range, thin materials and wire cutting
 Large Range (L): For maximum cutting capacity and thicker mate
- Effortlessly cuts soft metals up to 0.5 mm, wire netting up to 1 mm, leather and fabric up to 5 mm, thick carpet, artificial turf, small branches and heavy cardboard
- Wire cutter notch built into blade to cut wires up to 2mm thick
- 45° ergonomic handle design allows for prying under surfaces while keeping hands clear of the work area—fully ambidextrous for right- or left-handed use
- 3.5 mm curved Japanese Stainless Steel Blades with single serrated edge serrated for precise, controlled cuts and long-lasting sharpness
- Adjustable tension screw allows for easy blade resistance customization to suit cutting needs
- Integrated tether hole for easy attachment to lanyards or safety gear, helping prevent drops on the job

SPECIFICATIONS	
APPLICATION	Thin Sheet Metal, Wire Netting, Fabric, Plastic, Carpet, Turf, Corugated Carton Cardboard
MAXIMUM CUTTING DIAMETER	Aluminum/Copper Wires: Up to 2 mm Iron Wires: Up to 1 mm
HANDED	Ambidextrous
CUTTING LENGTH	2.5" (6mm)
BLADE MATERIAL	Japanese Stainless Steel
HANDLE MATERIAL	TPR (Thermoplastic Rubber)
OVERALL LENGTH	8.5" (220 mm)
DIMENSIONS	n/a
WEIGHT	n/a
UPC #	810132438455
